

### Learning Intention:

Today we are: designing an informative poster

So we can: raise awareness about the dangers of alcohol and encourage young people not to drink.

I will know I have been successful: when I create a poster highlighting the dangers of alcohol.

In this lesson you have learnt more about the physical, social, and legal impacts of alcohol. Knowing the effects before they even happen can help people to make informed choices about alcohol.

### Assessment Task:

On a blank piece of art paper, in your workbook, or digitally in Canva, PowerPoint or other design software, design an awareness poster highlighting the dangers of alcohol: on the brain, body, decision-making abilities or socially.

## Design An Alcohol Awareness Poster

### Title and Message

Include a catchy slogan or title to grab attention.

### Educational Content

Share at least three facts about the dangers of alcohol.

### Visual Appeal

- Use drawings, symbols, or digital designs to make your poster visually striking.
- Include bright colours, bold fonts, or creative artwork to grab attention.

### Encouraging Message

Add at least one positive statement encouraging young people to stay alcohol-free

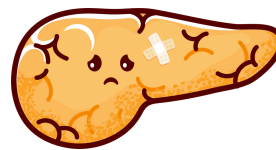

### Optional Components

A QR code linking to an alcohol education website or hotline for further information (if using digital tools).

Protect Your Brain,  
Say No To Alcohol

Alcohol can harm  
your brain and  
memory.

Alcohol damages  
your growing  
body.

Drinking alcohol can  
make it harder to  
make good decisions.

You're stronger without alcohol
